# Hazardous Weather

## Thunderstorm Risk Today

Weather Forecast Office

San Angelo, TX

Issued Apr 03, 2020 3:16 AM CDT

**WHAT:** Thunderstorms with hail and locally heavy rain  
**WHERE:** Southeast of a Sonora to Brownwood line, mainly across the Hill Country  
**WHEN:** This morning, then shifting southeastward late this afternoon

**IMPACTS:**  
- Hail may cause property damage and/or injury  
- Heavy rainfall may cause flash flooding.

### Risk Level

Slight

Marginal

General Tstms

f t NWSanAngelo

weather.gov/sjt

Thunderstorms are likely southeast of a Sonora to Brownwood line, mainly across the Hill Country. The main hazards are hail and locally heavy rain. Storms may initially develop over the northwest Hill Country this morning, then shift southeastward late this afternoon. Hail may cause property damage and or injury, while heavy rainfall may cause flash flooding for some areas.

## A Few Strong/Severe Storms on Friday

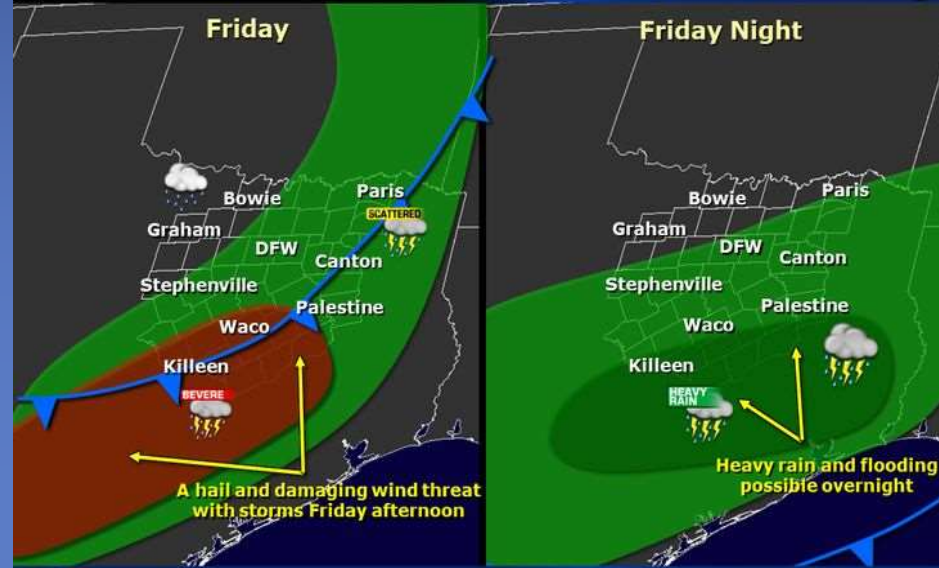

Weather Forecast Office

Fort Worth, TX

Issued April 3, 2020 3:34 AM CT

Locally Heavy Rainfall Possible Overnight Friday Night

f t NWSFortWorth

weather.gov/fortworth

Some severe weather is possible ahead of a cold front today (Friday). Highest storm chances will be across Central Texas with lower chances farther north near the Red River. A threat for heavy rainfall and flooding will exist tonight as new showers and storms develop behind the front.

# Hazardous Weather

## Showers and Thunderstorms

Some Storms Could Be Severe and Produce Locally Heavy Rain

Weather Forecast Office  
Austin/San Antonio, TX  
Issued Apr 03, 2020 4:39 AM CDT

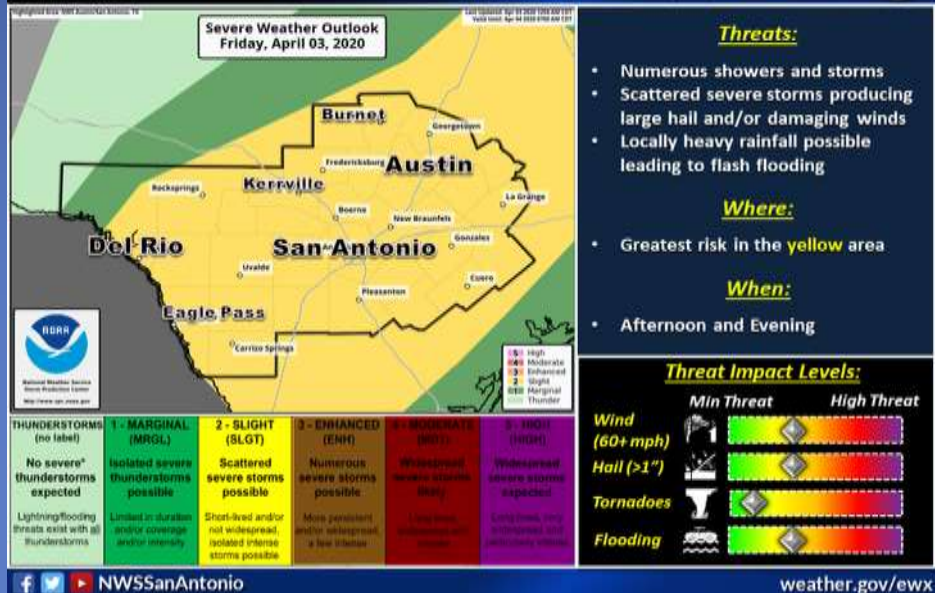

A cold front will bring showers and thunderstorms to South Central Texas today. There is a slight risk for severe thunderstorms capable of producing large hail and damaging wind gusts. Locally heavy rain is also possible. High temperatures will range from the lower 70s to near 80.

## Severe Weather Outlook

SCATTERED SEVERE STORMS THIS AFTERNOON AND EVENING

Weather Forecast Office  
Austin/San Antonio  
Issued April 3, 2020 4:37 AM CT

Numerous showers and storms are expected today. Some scattered thunderstorms could become severe. There is a Slight Risk for severe thunderstorms over most of South Central Texas this afternoon and evening. The most likely threat will be for large hail and damaging wind gusts. There is also a chance for locally heavy rain that could lead to flash flooding.

# Hazardous Weather

## Severe Thunderstorms Possible

This Afternoon Into Tonight

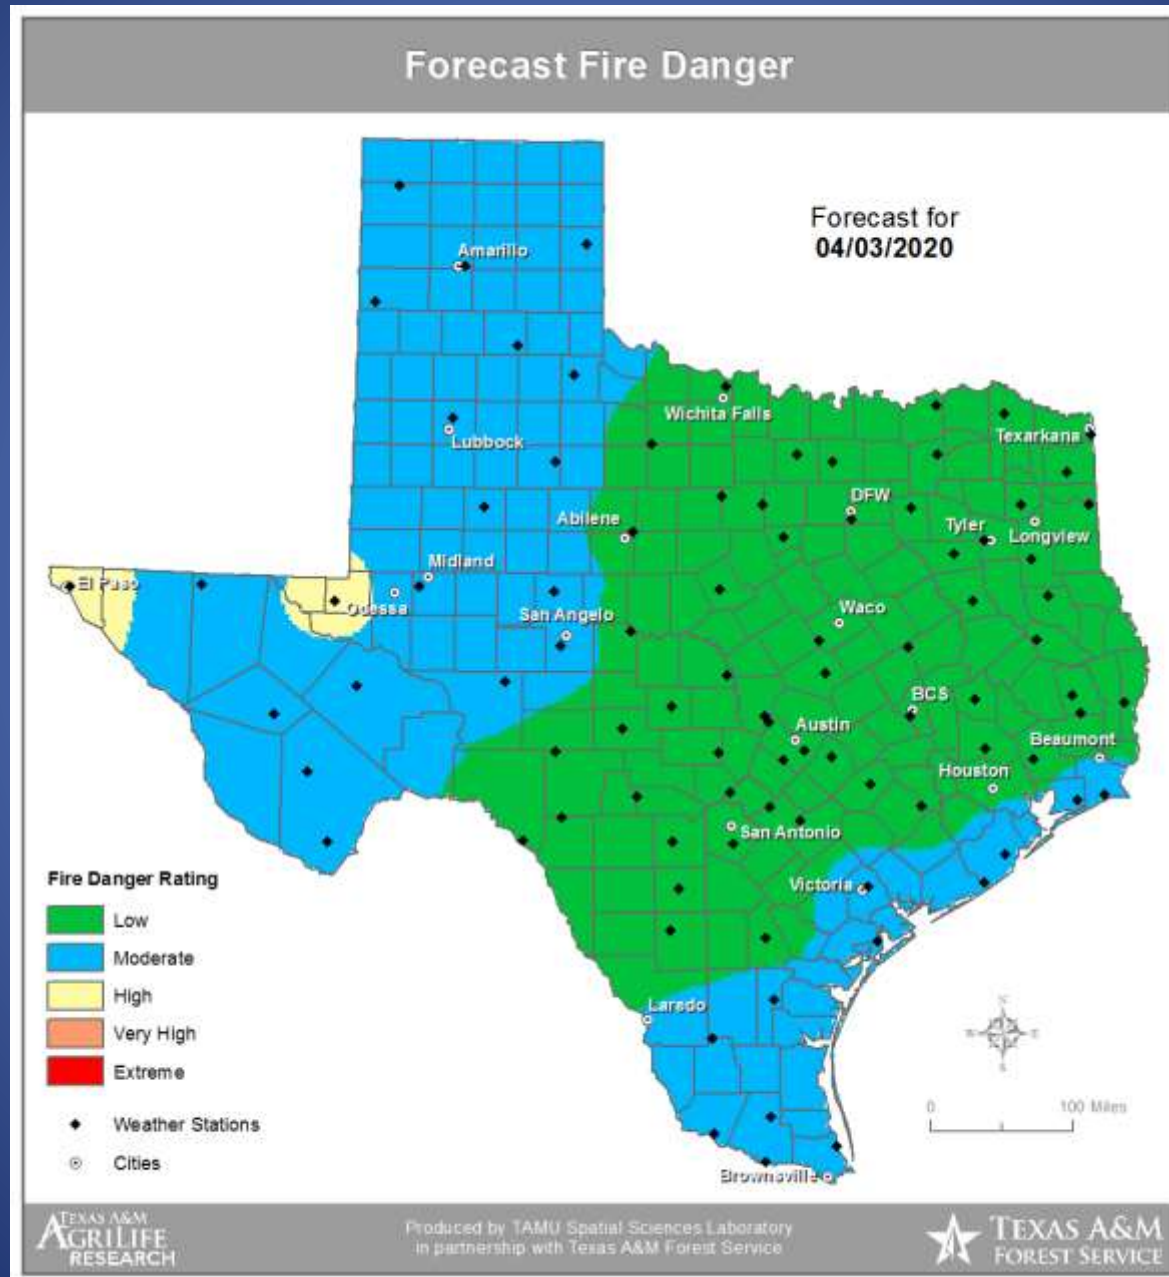

Weather Forecast Office  
Corpus Christi, TX

Issued Apr 03, 2020 5:12 AM CDT

Severe thunderstorms will be possible across the region this afternoon into tonight. The primary threats will be large hail and damaging winds. A tornado cannot be ruled out, mainly over western portions of South Texas this afternoon and evening near the frontal boundary.
